Presenter Bios

Jennifer P. Lundblad, PhD, MBA, President and CEO Stratis Health
Dr. Lundblad leads Stratis Health, an independent non-profit quality improvement organization based in Bloomington, Minnesota, that leads collaboration and innovation in health care quality and patient safety. She has an extensive background in leadership, organization development, and program management in both non-profit and education settings.

Jennifer has a BA in speech communication and economics from Macalester College, an MBA in public and non-profit management from Boston University, and a PhD in Education with a focus on organization development from the University of Minnesota.

Teddie Potter, PhD, RN, FAAN, Clinical Associate Professor, Specialty Coordinator of the Doctor of Nursing Practice in Health Innovation and Leadership, Director of Inclusivity and Diversity, School of Nursing, University of Minnesota.

Dr. Potter has a rich practice history including over thirty years in home care. Dr. Potter has often been at the heart of paradigm shifts, including being one of the first home care nurses in her state, starting a specialized home care program for people living with HIV/AIDS, and helping start one of the first palliative care programs in the nation.

Dr. Potter has been a nurse educator for over sixteen years. She has also shown a long-term commitment to diversity and inclusivity, studying factors that help diverse students succeed in nursing school and teaching healing traditions of our diverse community.

Dr. Potter has spoken nationally and internationally about partnership-based health care and The BASE of Nursing, new theories to guide nursing practice, education, and research. She co-authored with Riane Eisler, the AJN Book of the Year award winning book, Transforming Interprofessional Partnerships: A New Framework for Nursing and Partnership-Based Health Care. This book equips nurses to be full partners, ready to lead necessary change to advance the health of all nations.

She is Executive Editor for the Interdisciplinary Journal of Partnership Studies; a peer-reviewed, open-access, online journal promoting interdisciplinary collaboration as a solution for solving society’s grand challenges.

Glen Kegley
Glen Kegley is a pharmacist and Chief Operating Officer at Hutchinson Health in Hutchinson, MN. Glen has over 30 years of healthcare experience in many areas including retail pharmacy, pharmaceutical care program development and implementation, hospital pharmacy and various levels of healthcare leadership. Prior to accepting his current position as Hutchinson Health’s COO, Glen
managed the organizations’ Quality and Safety Services area. It was in this role that he was introduced to and embraced the principles of Value-Based Purchasing and the broader concept of payment for quality. Glen is passionate about patient safety and quality improvement.

Hutchinson Health has been recognized for achieving the top score in FY 2016 of CMS’ Value-Based Purchasing program across Minnesota’s PPS hospitals. As we’ll soon hear from Glen, this achievement is the outcome of strong collaboration of leadership and many individuals across several disciplines who commit daily to the delivery of quality services and are open to experiential learning to drive improvement.

Andrea Hager
Andrea is the manager of Mercy & Unity Hospitals Quality, Accreditation, and Medical Staff Services department. She has been with Allina Health for almost 10 years. Public reporting, including the VBP program, is one of the areas of accountability she holds at the two hospitals. Andrea has extensive background in regulatory regulation as she has been a MNOSHA health inspector and currently has Accreditation & Certification programs at the hospitals reporting to her. She holds a Master’s specializing in Public Health; with extensive safety methodology training received while a private contractor for the US Army. One of her passions is working with the full spectrum of key stakeholders to drive improvement from physicians through frontline staff. Mercy has built a strong, integrated structure that involves the full spectrum of key stakeholders; which you will see in her presentation.

Mercy Hospital has recently been recognized for achieving the top score in FY 2016 VBP program as has Hutchinson Health. Mercy continues for the 5th consecutive time to be named a Truven Health Top 100 Hospital in the nation. US News & World’s Report 2015-2016 Best Hospital Rankings named Mercy Hospital third in the metro and fifth in the state.

Beverly Christie, DNP, RN
Beverly is the Sr. Director for Integrated Quality & Pt. Safety at Fairview Health Services. In her role she works across the Fairview Health System which includes eight hospitals. She has been part of Fairview Health Services for more than 25 years and will be sharing Fairview Health Services experience with using summits to drive quality improvement. Beverly received her DNP from the University of Minnesota in 2008.

Lindsey Lesher, MPH
Lindsey Lesher is an independent consultant specializing in healthcare epidemiology and infection prevention and control in healthcare settings. Additionally, Mrs. Lesher is pursuing a doctorate in epidemiology at the University of Minnesota – Twin Cities. Her current research focuses on the role of the organization in patient safety – specifically, the impact of hospital policies on methicillin-resistant Staphylococcus aureus (MRSA) infection rates. Prior to her current position, she worked as an epidemiologist for ten years at the Minnesota Department of Health in the Infection Control and Antibiotic Resistance Unit. Mrs. Lesher earned her Bachelor of Science in biology at the University of California – Santa Barbara and her Master in Public Health in epidemiology at the University of Minnesota – Twin Cities. Mrs. Lesher is a member of the Association for Professionals in Infection Control and Epidemiology, the Society of Epidemiologic Research, and the Society for Healthcare Epidemiology of America.

Kathleen Steinmann, MT (ASCP), CIC, Infection Preventionist, Hennepin County Medical Center
Kathleen has been in the field of Infection Prevention since 1997 and maintains board certification in infection control. Her work includes infection surveillance, public reporting of infections, and hospital
quality improvement projects related to the prevention of infections; she has been a contributor of MHA and Stratis initiatives in these areas. In addition, she has served on the APIC MN chapter board in multiple areas and is a past president of the chapter.

**Patricia L. Dumonceaux MSN, RN, PHN, CIC, Infection Prevention, CentraCare Health St. Cloud Hospital**

Patricia has received Certification in Infection Control and Epidemiology (CIC) and is member of the Association for Professionals in Infection Control and Epidemiology (APIC) national and local chapter. Patricia collaborates with various medical departments and teams working towards zero healthcare associated infections. She is actively involved with reviewing practices and implementation of infection prevention evidence based practice recommendations for my organization. She is working with multiple evidence based research projects and involved in the continuous development of patient educational materials related to infection prevention, appropriate product use, and health promotion educational materials for hospital and community settings. Through her partnership with others within her healthcare organization, Patricia strives to link patient safety, patient experience, and infection prevention while providing the highest quality of care for our patients.

**Sharon Kim, Mayo Clinic Health System**

Sharon is a 4th year medical student at Mayo Clinic in Rochester, MN, who has been working closely with Dr. Jamie Bakkum-Gamez on a quality improvement project designed to reduce surgical site infections after major gynecologic cancer surgery. She is the second author for a research publication titled "Using Bundled Interventions to Reduce Surgical Site Infection after Major Gynecologic Cancer Surgery", which will be published in the Obstetrics & Gynecology Green journal in June 2016. Her role in the project was data abstraction and manuscript drafting as well as editing. Sharon will be joining Mayo Clinic's OB/GYN residency program in June 2016.

**Abraham Jacob, MD**

Abraham Jacob, MD joined the Department of Pediatrics in 2005. He serves as medical director of one of the medical/surgical units in the children’s hospital and also as a lead for quality in the Fairview Mother’s and Children’s service line. He is a regular staff attending on the Academic General Pediatric service at the University of Minnesota Masonic Children's Hospital as well as serving as a staff attending on the Internal Medicine service. He is currently pursuing his Masters in Health Care Administration at the School of Public Health at the University of Minnesota.

After graduating from the University of Notre Dame, Dr. Jacob went on to medical school at the University of Toledo College of Medicine where he graduated in 1994. He went on to complete his Internal Medicine/ Pediatrics residency at the University of Minnesota in 1998. After finishing residency, he was in a busy primary care practice and served as medical director of Fairview Eagan Clinic. During his years in primary care practice, he precepted residents and medical students and served in various leadership and governance roles in the health system.

Dr. Jacob’s main interests include resident education, improving inpatient care delivery and patient safety through family centered care. He is board certified in Pediatrics and Internal Medicine.

**Corey Martin, MD**

Corey brings 11 years of private family medicine practice to his current role as the Director of Medical Affairs for Buffalo Hospital. Dr. Martin obtained his undergraduate degree at North Dakota State University and is a graduate of Yale School of Medicine. He completed his specialty training in Family Medicine in Bismarck, North Dakota. He is a graduate of the University of St. Thomas Physician Leadership College. He spends much of his time currently on the Bounce Back Project for Buffalo
Hospital, giving hundreds of organizational and community presentations a year on how to be more resilient when things just don’t go your way. Dr. Martin chairs the Minnesota Hospital Association’s Subcommittee on Physician Burnout and has recently been asked to help develop a program to address burnout in caregivers and provide education to improve resilience for the entire Allina Health System. In his free time, he enjoys traveling, facilitating service learning trips and working on his farm that he has recently turned into an event center. He lives in Buffalo with his wife and three daughters.

Rahul Koranne, MD
Rahul Koranne joined the Minnesota Hospital Association leadership team as senior vice president of clinical affairs and chief medical officer in February of 2015. Prior to joining MHA, Dr. Koranne practiced in a critical access hospital system in Starbuck, MN and he served as vice president and executive medical director for HealthEast Care System, Community Services, Post Acute Care, and Bethesda Specialty Hospital. He is board-certified in internal medicine and geriatrics and was elected a Fellow of the American College of Physicians in 2006.

Dr. Koranne’s areas of interest are health care transformation by linking health care delivery with community based services (both medical and social) and innovative systems to promote health while striving to achieve the IHI triple aim for our communities.
